### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jianming Hao on December 17, 2004.

The application has been amended as follows:

Claims 7 and 8 and nonelected claims 18-26 were cancelled without prejudice towards further prosecution.

2. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to specific primers for detection of human respiratory viruses. Applicant's declaration under 1.132 filed November 24, 2004 persuasively demonstrated that, for this target at least, all primers selected from these sequences were not equivalent in their capacity to detect the viruses (see figure 1 of declaration, for example). Therefore, the novel specific primers claimed are subject to an unexpected result with regard to their specificity and therefore are unobvious over the prior art. Consequently, the claimed invention is novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
